

Dedicated AI to help students master English writing while reducing teacher workloads

1

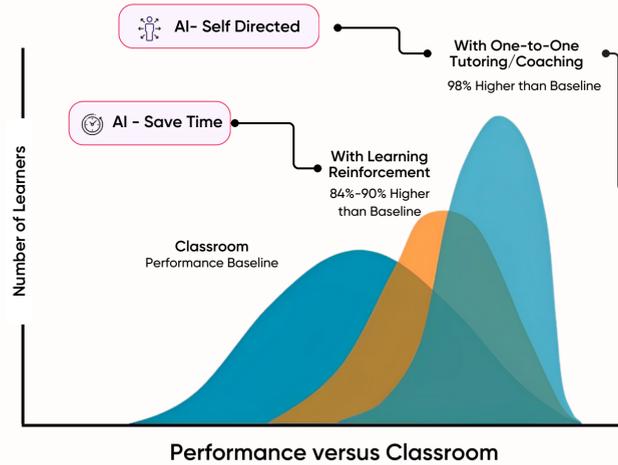

THE 8 TYPES OF WRITERS IN EVERY CLASS

2

BLOOM'S RESEARCH DEFINES THE CHALLENGE

Research says that more time for personalisation delivers the biggest impact.

To lift student performance by 98% - 2 standard deviations (sigmas)

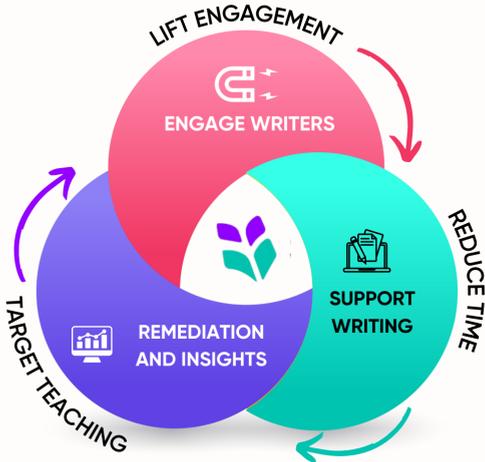

Chart based on the following education research: Source: The 2 Sigma Problem; Bloom; JSTOR 2006

Scribo consolidates student engagement, writing support and remediation of writing to amplify impact.

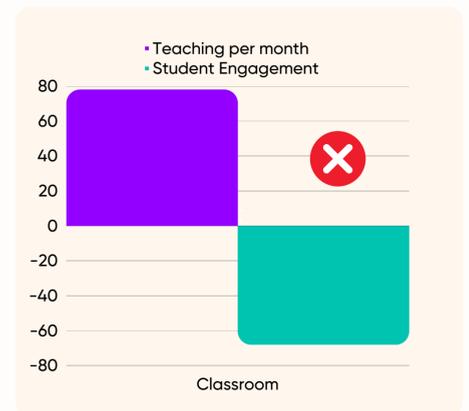

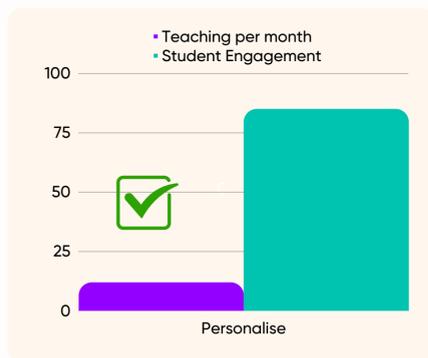

Reducing teacher workloads helps to optimise outcomes. Teachers save time with better insights - students engage in more writing with more feedback.

THE AI (ADDITIONAL INSTRUCTOR) OPPORTUNITY

5 SCRIBO INTEGRATION

Students Write MORE
Engage writers at all levels of skill with differentiation, inclusion, and diversity.

Everyone Saves TIME
Support writing - save teacher time, promote self-direct learning through feedback.

DATA drives remediation
Visible data helps target teaching and remediate skills.

6

“Scribo helps teachers help students improve their English writing skills”

RE-IMAGINE THE WRITE PROCESS

WRITE MORE

Students transform their ideas into writing. Good planning promotes clear thinking and better writing. Teachers have visibility.

MAKE PROGRESS

Students use the feedback to self-direct their improvement. Students see how changes and edits impact the quality of their final text.

BETTER WRITERS
ADVANCE SKILLS THROUGH ENGAGEMENT

7

ENGAGE THINKING

Scribo opens a guided writing space with planning, scaffolding and feedback support. Engage students with a positive writing mindset for all writing genres.

INSTANT FEEDBACK

Students receive personalised feedback targeted to ideas that will improve their writing. This saves teachers hours of work.

SEE RESULTS

Teachers see improvement, track results and have more time to tutor. Students love the speed of advice they get from instant feedback and grading.
