What people are saying

I let my students practice on their phone. Engagement is 100%

Nan GeryUSA

These libraries are great. They are challenging, they fully auto answer, no marking for me and the students love the interface. I simply pick a few per week and send them off with some revision.

It's so easy and they work!

Mario RossAbu Dhabi

The best part is I can bring these decks into my library, add some fun like Glifys and have a laugh while doing Grammar practice.

ALL skills need practice and revision

Reading and comprehension skills need continual practice. The reading and listening passages need to be diverse and increase in difficulty, as do the inferencing questions that get asked.

There is no effective way to learn and improve reading, listening and comprehension skills other than to use well-calibrated comprehension and reading content with well-structured assessment questions.

Presto Learning contains a library of Comprehension, Listening and Reading activities, able to be deployed by teachers, direct to a class for completion and assessment.

The Presto ENGLISH SKILLS library

Presto Learning has a comprehensive library of English skills activities. There are over 480 curriculum-aligned resources that cover a range of topics including:

Grammar, Punctuation, Sentence Structure, Voice, Tense, Comprehension, Reading, Listening and Speaking activities, to name just a few.

Teachers:

- can search the library, selecting an appropriate level of Comprehension, Listening or Reading activity.
- can quickly share the activity to the Class via a QR code, or links into Google Classroom, Teams, WhatsApp, or other social media sites. Each share code can require a user login or be shared with anyone with a link.
- All learning activities are compatible with desktop and tablet and optimised for mobile delivery.
- Teachers get statistics on usage, access and student scores.
