

## WRITING PLANNING AND SUPPORT

Research confirms that helping students to plan before they write improves writing development, confidence and quality.  
**Good thinking powers good writing.**

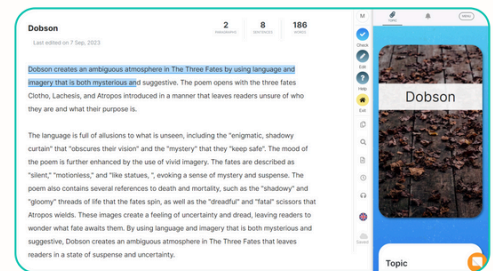

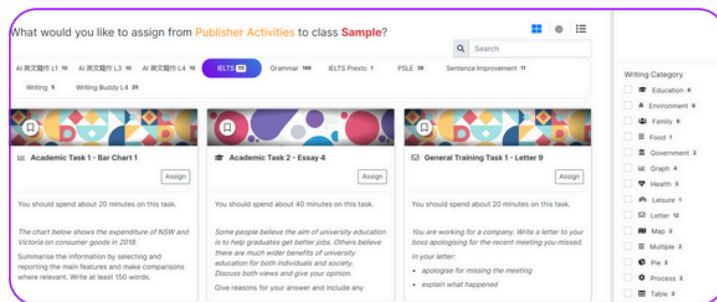

### Differentiate scaffold support with AI

01

02

### Leverage Activity Libraries

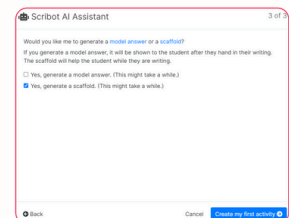

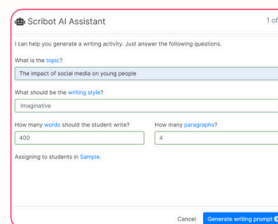

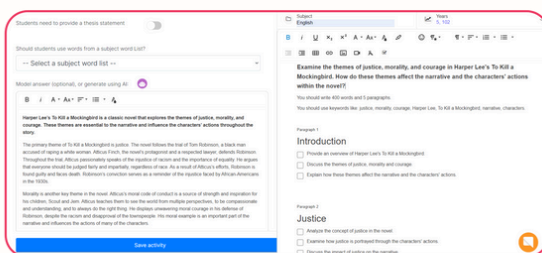

Libraries of levelled-activities with supporting guidance and exemplars are available. Presto Learning integrates AI personalised scaffolds helping to differentiate guidance and learning.

03

### Create writing activities and writing scaffolds with AI support in seconds

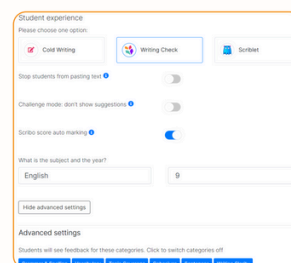

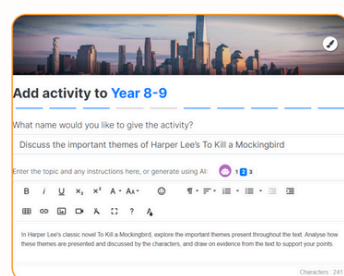

You drive the topic, Scribo AI builds the student experience. Exemplars and scaffolds are created and linked for students to work with.

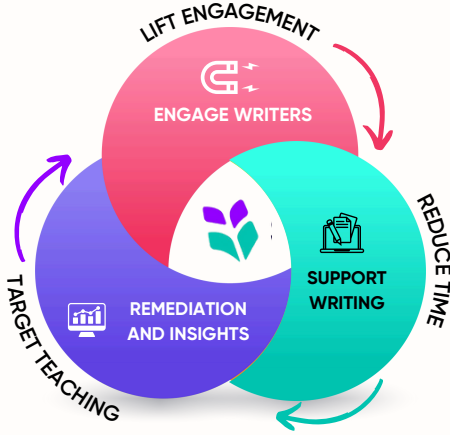

### Tailor writing activities to support your students

04

Share writing activities with colleagues via online libraries.

Tailor the student writing experience

## SUPPORT WRITING AND WRITERS

Feedback, ideas for improvement and what to do next is the most powerful feedback a student writer can get.

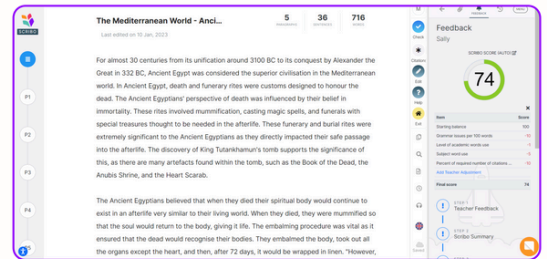

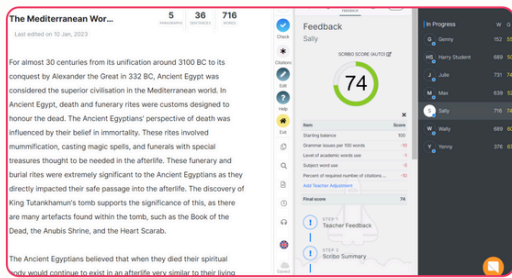

### Students access instant feedback

### Teachers see across all students

Teachers and students share the same feedback, scoring and guidance advice. Finally everyone is on the same writing page in real time. Multiple scoring methods are supported.

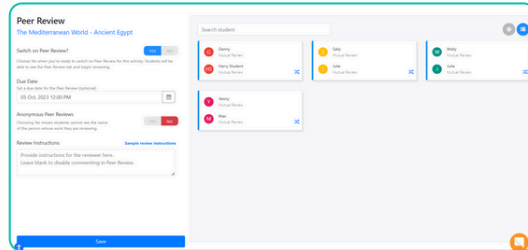

02

### Engage students in Peer Review

Students collaborate and grade with marking rubrics. Students who experience peer review, lift their skills via self-reflection.

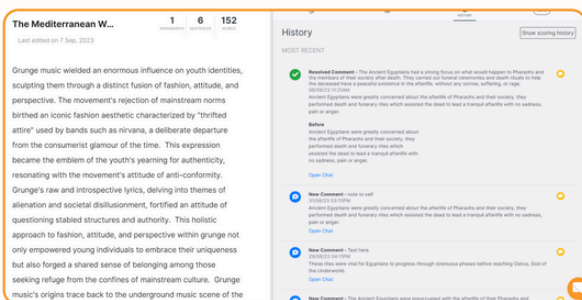

03

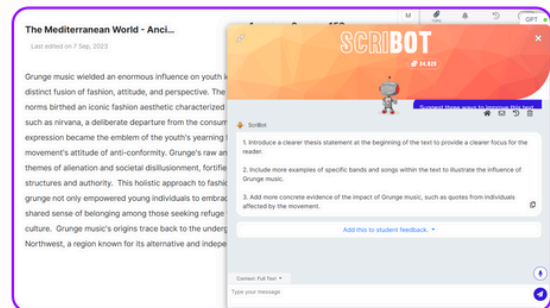

04

### Track writing improvement as students work

Watch improvement and track progress as students work.

05

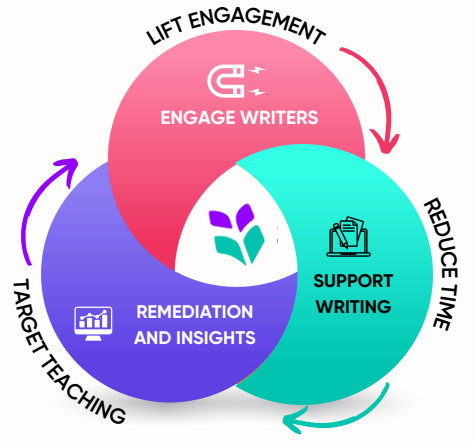

Integrate AI powered feedback, grading and suggestions in seconds to extend the power of your feedback.

REMEDiation AND INSIGHTS

REMEDiation AND INSIGHTS

Teachers see student writing progress task by task to understand where more help is needed.

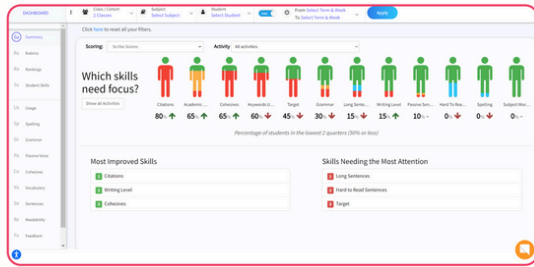

Teachers see progress for all students

01

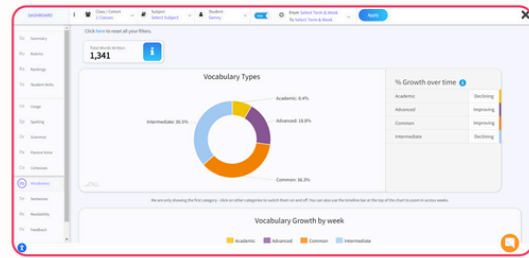

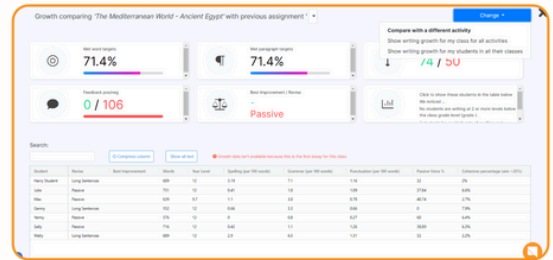

02

Instant insights into skill levels

Details of what skills need more attention are visible across any marking and grading rubric.

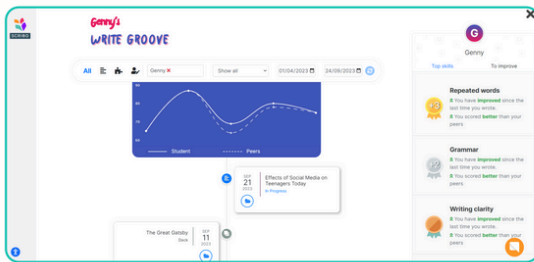

Metrics by writing element track progress over time, and by week and term

03

Each student's writing history is tracked and accessible

The write groove tracks everything a student attempts and completes. Progress is visible across classes, terms and years.

04

AI builds remediation strategies and links into a library of skill development activities to extend student skills.
